

BAGS

Offset printed paper bags are truly beautiful and feature unseen options such as incrustated metal plate, fully customized handles, metals and soft PVC charms to be adorned with. Your bag will be remembered for it's unique features and originality. A bag is more than a container ; it's a gift.

Woovy bags are the product of the future. Made from non-woven polypropylene they are recyclable and they can be fully customized in any shape or pantone color. The perfect substitute for the ordinary plastic shopping bag, one of the major contributors to non-recyclable waste generated all over the world. Be an advocate for the use of woovy bags and help to protect the environment for future generations.

BIO bags bring an alternative packaging solution to the market. Ranging from environmentally friendly and recyclable materials to fully compostable bags, we provide you with the ideal promotional vehicle. Associate your logo or brand to a worthy and crucial cause that is preservation of our planet, moving away from being a part of the problem to becoming part of the solution.

POP bags are the ideal promotional platform for your name or brand. Made of highly durable material, they are covered with a special coating that allows offset printing on the entire surface. The logo or image of your choice will be displayed in all its detail and beauty. Your bag will be used over and over again, for many months or even years. What a great return on your investment for advertising your name!

PET bags strike the perfect balance between costs, printing possibilities and environmental concern. This choice of product and material allows printing by sublimation. This way, your company will be able to show its corporate social responsibility in its full colors.

Cotton bags are natural and durable products which project your corporate image as environmentally responsible. In shapes that are fully customizable, the fabric can be dyed in any pantone color thus providing higher degrees of uniqueness to your final choice of design. Heavy-duty and washable, your personalized bag will be used for a very long time, displaying your brand or logo over and over again. An excellent return for your advertising investment!

POP BAGS

Nowadays, recycling and reusability are messages that need to be incorporated in almost every promotional campaign. With our new POP bag line, we have created the ideal promotional platform for your name or brand. Made of highly durable material, it is covered with film that allows offset printing on its entire surface. The logo or image of your choice will be displayed in all its details and beauty. You can be sure that your bag will be used over and over again, for many months or even years. What a great return on your investment for advertising your name!
